**DIRECTIONS FOR USE**

**GOLF TURF**

**Greens and Tees:**

Begin with two applications of 3 lb per 1000ft<sup>2</sup> at 30 day intervals. Follow every thirty days with a treatment of 1 1/2 lb to 3 lb per 1000ft<sup>2</sup> for the remainder of the growing season.

**Fairways:**

Begin the spring treatment with 3 lb per 1000ft<sup>2</sup>. Repeat with 1 1/2 lb per 1000ft<sup>2</sup> every thirty days throughout the growing season.

**GENERAL TURF**

For home lawns and athletic fields, apply 3 lb of AQUA-AID Granular per 1000ft<sup>2</sup>. Applications should begin three to four weeks prior to heavy field use. Apply a repeat treatment of 1 1/2 lb every thirty days. Spot treat mounds, hill edges, compacted areas and localized dry spots.

**HORTICULTURE**

Apply 3 lb AQUA-AID Granular, per 1000ft<sup>2</sup> to established landscape beds and shrubbery in early spring. Repeat treatment in three to four months. For newly transplanted beds, apply 3 lb AQUA-AID Granular, per 1000ft<sup>2</sup> after transplant. Repeat treatment with 1 1/2 lb per 1000ft<sup>2</sup> after three to four months.
