DIRECTIONS FOR USE

GENERAL

Aquifer™ Granular can be applied any time of the year. Best if applied in the beginning of the season and followed up throughout the growing season. Aquifer™ Granular will not burn and does not have to be watered in. Do not collect clippings from the first mowing after application to avoid removal of Aquifer Granular. Water in before applying a fungicide and/or fertilizer.

One pound of Aquifer™ Granular is equivalent to 2 ounces of Aquifer™ Liquid.

GREENS, TEES AND FAIRWAYS

Maintenance Program:

Apply 2 lb per 1000ft² of Aquifer™ Granular. Repeat application of Aquifer™ Granular at 30 day intervals throughout the growing season.

Hydrophobic Problem Soils and Areas:

Apply 3lb of Aquifer™ Granular per 1000ft². Repeat with Maintenance Program at 30 day intervals until problem is solved.

Sports Fields and General Turf:

Apply 2 lb of Aquifer™ Granular per 1000ft² at 30 to 45 day intervals as needed.
