OARS®

ORGANIC ACID REMOVAL SYSTEM

The Corrective Approach

**OARS is the ultimate
management tool for water
repellent soils and management
of localized dry spots.**

OARS is safe to turfgrass when applied according to label rates.

OARS is easy to apply through standard spray application equipment to all turfgrass areas.

Golf, Sports and Lawn Turf Applications

OARS should be applied at 6 to 7 fl. oz. per 1,000 sq. ft. (190 to 225mL per 100 sq. meters) in 2 gallons (8L) of water every 30 days.

Irrigation is required after each application to remove OARS from the leaf surfaces.

AQUA-AID GUARANTEE

If you are not satisfied with OARS for any reason after trying the product at recommended rates, Aqua-Aid will refund your money.
