This product is intended for use as both a spray pattern indicator and a green pigment for spraying golf courses, parks, turf, and commercial applications.

**Features**

Pilot provides a darker richer pigment than most. Its faster absorption rate results in a more uniform look.

**Benefits**

Highly concentrated resulting in lower use rate.  
Increases the efficacy of turf chemicals.  
Eco friendly – improved fairway color without high fertilizer amounts, potentially reducing run off and algae bloom in lakes and ponds.

**Application recommendation**

Apply 10-20 ounces of Pilot per acre depending on desired color. If using as a spray dye indicator add 6-10 ounces of Pilot per 100 gallons of water.

\*This product is concentrated. Keep out of the reach of children. Do not take internally. Wear rubber gloves and eye protection to avoid contact with eyes and skin. In case of eye contact, flush with large amounts of water and consult a physician. If skin contact occurs, wash with soap and water.
