

CAMPO≈VERDE

18-3-4

Zeta \approx plex N™

Product Description

- CAMPO VERDE 18-3-4 Zeta plex N is a high performance foliar fertilizer.
- It rapidly enters plant tissue providing efficient and effective plant nutrition.
- CAMPO VERDE 18-3-4 Zeta plex N is not affected by common soil and plant issues impacting nutrient uptake and utilization.

Guaranteed Minimum Analysis

Total Nitrogen (N).....	18.0%
9.0% Ammoniacal Nitrogen	
9.0% Nitrate Nitrogen	
Available Phosphate (P ₂ O ₅).....	3.0%
Soluble Potash (K ₂ O).....	4.0%
Derived From: Ammonium nitrate, ammonium phosphate and potassium nitrate	

How CAMPO VERDE 18-3-4 Zeta plex N Works

18-3-4 Zeta \approx plex N™ is the combination of a patented amino acid polymer and a proprietary manufacturing process providing a product that is readily taken into plant tissue and remains available to the plant for substantially longer periods.

This allows maximum plant nutrition utilizing low dose applications.

18-3-4 Zeta \approx plex N™ delays the formation of insoluble, unavailable precipitates due to the interaction of positive and negative ions.

Key Product Benefits

- Absorbed into plant tissue
- Improved stress tolerance
- Improved nutrient uptake and use
- Reduced Thatch
- Immediate plant response
- Low Dose
- Less product required
