

CAMPO≈VERDE

9-0-0

Z e t a ≈ p l e x 12% Ca™

Product Description

- Campo Verde 9-0-0 Zeta plex 12% Ca is a concentrated calcium complexed with an amino acid polymer for improved plant uptake
- Calcium is an essential element required for plant cell development and strength and proper seed germination
- Campo Verde 9-0-0 Zeta plex 12% Ca supplemented in foliar programs improves stem strength and plant tolerance to disease and stress

Guaranteed Minimum Analysis

Total Nitrogen (N) 9.0%
9.0%..... Nitrate Nitrogen
Calcium (Ca)12.0%

Derived from: Calcium nitrate and complexed with Zeta plex technology

How Campo Verde 9-0-0 Zeta Plex 12% Ca Works:

9-0-0 Z e t a ≈ p l e x 12% Ca™ is the combination of a patented amino acid polymer and a proprietary manufacturing process providing a product that is readily taken into plant tissue and remains available to the plant for substantially longer periods.

This allows maximum plant nutrition utilizing low dose applications.

9-0-0 Z e t a ≈ p l e x 12% Ca™ delays the formation of insoluble, unavailable precipitates due to the interaction of positive and negative ions.

Since Calcium is not mobile in the plant, this delivers needed nutrition when and where it is demanded by the plants.

Key Product Benefits:

- Immediate Plant Uptake
- Improved Cell Structure
- Immediate Plant Utilization
- Improved Stress and Wear Tolerance

Product Weight / Gallon
12.5 lbs.
1.50 lbs. of Ca / Gallon
pH 2.2
