

# ENERGY

## Carbo Trace Pak

### Product Description

- **Energy** is a liquid blend of Iron, Manganese and Zinc in an organic nitrogen matrix that allows the plant to absorb the nutrients through the leaf or by the root.
- **Energy** is formulated with a blend of sugars and starches that holds the metallic ions in solution allowing the plant to biologically assimilate the nutrients as they are needed.
- **Energy** is an excellent choice for speeding the recovery time of turf damaged by mechanical manipulation and heavy play.
